

Deciphering evolutionary mechanisms between mutualistic and pathogenic symbioses

M. K. NISHIGUCHI, A. M. HIRSCH, R. DEVINNEY, G. VEDANTAM, M. A. RILEY, L. M. MANSKY - 87-106 - [Abstract](#) - [rokdownload menuitem="126" downloaditem="161" direct_download="true"]PDF[/rokdownload]

Parasitism, commensalism, and mutualism: exploring the many shades of symbioses

T. L. F. LEUNG, R. POULIN - 107-115 - [Abstract](#) - [rokdownload menuitem="127" downloaditem="168" direct_download="true"]PDF[/rokdownload]

Computer simulation of host and several parasite species with ageing

D. STAUFFER, K. H. LAMPE - 117-120 - [Abstract](#) - [rokdownload menuitem="128" downloaditem="162" direct_download="true"]PDF[/rokdownload]

How to measure ecological host specificity

K. ROHDE, P. P. ROHDE - 121-124 - [Abstract](#) - [rokdownload menuitem="129" downloaditem="163" direct_download="true"]PDF[/rokdownload]

Beyond the paradigms of cospeciation and host-switch: is sympatric speciation an important mode of speciation for parasites?

S. MORAND, A. ŠIMKOVÁ, S. GOURBIÈRE - 125-132 - [Abstract](#) - [rokdownload menuitem="130" downloaditem="164" direct_download="true"]PDF[/rokdownload]

Cleaner shrimp (Caridea: Palaemonidae) associated with scyphozoan jellyfish

J. E. MARTINELLI FILHO, S. N. STAMPAR, A. C. MORANDINI, E. C. MOSSOLIN - 133-140 - [Abstract](#)

- [rokdownload menuitem="131" downloaditem="165" direct_download="true"]PDF[/rokdownload]

Understanding the intracellular niche in cnidarian-Symbiodinium symbioses: parasites lead the way

J. A. SCHWARZ - 141-151 - [Abstract](#) - [rokdownload menuitem="132" downloaditem="166" direct_download="true"]PDF[/rokdownload]

Tsetse fly and medicinal leech symbioses: providing insights into microbial species interactions within gastrointestinal systems

R. V. M. RIO - 153-163 - [Abstract](#) - [rokdownload menuitem="137" downloaditem="167" direct_download="true"]PDF[/rokdownload]

Sponges and microbes - new frontiers in an ancient symbiosis

A. SIEGL, K. BAYER, S. KOZYTSKA, U. HENTSCHEL, S. SCHMITT - 165-174- [Abstract](#) - [rokdownload menuitem="138" downloaditem="169" direct_download="true"]PDF[/rokdownload]

The evolutionary ecology of a sepiolid squid-Vibrio association: from cell to environment

S. V. NYHOLM, M. K. NISHIGUCHI - 175-184 - [Abstract](#) - [rokdownload menuitem="139" downloaditem="170" direct_download="true"]PDF[/rokdownload]

Symbiotic relations and feeding biology of Symbion pandora (Cycliophora) and Triticella flava (Bryozoa)

P. FUNCH, P. THOR, M. OBST - 185-188 - [Abstract](#) - [rokdownload menuitem="140" downloaditem="171" direct_download="true"]PDF[/rokdownload]
