

Changes in benthic meiofaunal assemblages in the vicinity of fish farms in the eastern Mediterranean

N. LAMPADARIOU, I. KARAKASSIS, S. TERASCHKE, G. ARLT- 61-69 - [Abstract](#) - [rokdownload menuitem="351" downloaditem="337" direct_download="true"]PDF[/rokdownload]

Natural recovery of Amazonian mangrove forest as revealed by brachyuran crab fauna: preliminary description

J.M. AMOUROUX, M. TAVARES - 71-79 - [Abstract](#) - [rokdownload menuitem="352" downloaditem="338" direct_download="true"]PDF[/rokdownload]

Spatio-temporal organization patterns of demersal assemblages of the east coast of Corsica (Mediterranean Sea)

J.C. GAERTNER, J.A. BERTRAND, D. SAMANI , A. SOUPLET - 81-89 - [Abstract](#) - [rokdownload menuitem="353" downloaditem="339" direct_download="true"]PDF[/rokdownload]

Cryptocandona kieferi (Crustacea, Ostracoda): redescription, morphological variability, geographical distribution

T. NAMIOTKO, P. MARMONIER, D. L. DANIELOPOL - 91-108 - [Abstract](#) - [rokdownload menuitem="354" downloaditem="340" direct_download="true"]PDF[/rokdownload]

Habitat of the ortolan bunting *Emberiza hortulana* on a cause in southern France

J. FONDERFLICK, M. THÉVENOT, C.-P. GUILLAUME - 109-120 - [Abstract](#) - [rokdownload menuitem="355" downloaditem="341" direct_download="true"]PDF[/rokdownload]

Biomass production and nutrient budget in outdoor cultures of *Scenedesmus obliquus* (Chlorophyceae) in artificial wastewater, under the winter and summer conditions of Mazatlán, Sinaloa, Mexico

H. GÓMEZ-VILLA, D. VOLTOLINA, M. NIEVES, P. PIÑA - 121-126 - [Abstract](#) - [rokdownload menuitem="356" downloaditem="342" direct_download="true"]PDF[/rokdownload]

Biodiversity and zonation patterns of crustacean peracarids and decapods of coastal soft-bottom assemblages (Central Tyrrhenian Sea, Italy)

M.B. SCIPIONE, L. LATTANZI, P. TOMASSETTI, C. GUSSO CHIMENZ, F. MAGGIORI, L. MARINELLO, R. CIRONI, E. TARAMELLI - 127-141 - [Abstract](#) - [rokdownload menuitem="358" downloaditem="344" direct_download="true"]PDF[/rokdownload]

Abundance, zonation and ecological indices of a coleopteran community inhabiting a sandy beach ecosystem of the southern Adriatic coast of Italy

L. CHELAZZI, E. DEMATTHAEIS, I. COLOMBINI, M. FALLACI, V. BANDINI, C. TOZZI - 143-161 - [Abstract](#) - [rokdownload menuitem="357" downloaditem="343" direct_download="true"]PDF[/rokdownload]
